

# North Ridge Dairy

LIVE WORKING COPY / NOT FINALIZED

North Ridge Dairy / FARM-WI-01

All available records / no date filter

## NET AVOIDED EMISSIONS

# 47.020702

tCO<sub>2</sub>e / Current recorded environmental total.

Processed volume

## 59,350.00

gallons

Methane avoided

## 1,679.3108

kg CH<sub>4</sub>

## Recorded inventory & value

Recorded credit inventory

## 85.000000

credits recorded

Recorded sales value

## \$962.50

recorded amount

Payments received

## \$605.00

recorded amount

### Read the populations separately

Environmental totals, credit inventory and commercial records describe separate current populations. They are not a one-to-one conversion of processing into issued credits or cash.

RECORDED WARNINGS

# Environmental evidence

LIVE WORKING COPY / NOT FINALIZED

North Ridge Dairy / FARM-WI-01

All available records / no date filter

## Environmental totals

READY / 61 references / 0 warnings

| CAPTURED METRIC          | CURRENT VALUE | UNIT    |
|--------------------------|---------------|---------|
| Processed volume         | 59,350        | gallons |
| Methane avoided          | 1,679.3108    | kg CH4  |
| Net avoided emissions    | 47.020702     | tCO2e   |
| Potential carbon credits | 47.020702     | credits |

Current environmental totals; potential credits are separate from issued inventory. These aggregates do not preserve the full inputs, factor history or result-authorization chain.

## Data quality

READY / 61 references / 0 warnings

| CAPTURED METRIC      | CURRENT VALUE | UNIT |
|----------------------|---------------|------|
| Average data quality | 100           | %    |

This is the current average data-quality value, not a probability of accuracy or a calculation-confidence score.

## Registry readiness

READY / 1 references / 0 warnings

| CAPTURED METRIC          | CURRENT VALUE | UNIT  |
|--------------------------|---------------|-------|
| Eligible registry count  | 1             | count |
| Verification-ready count | 4             | count |

These counts record the readiness population captured by the report. They do not by themselves establish external verification, issuance or environmental performance.

# Inventory & financial position

LIVE WORKING COPY / NOT FINALIZED

North Ridge Dairy / FARM-WI-01

All available records / no date filter

## Credit inventory

READY / 4 references / 0 warnings

| CAPTURED METRIC | VALUE / UNIT         |
|-----------------|----------------------|
| Total inventory | <b>85</b><br>credits |
| Available       | <b>40</b><br>credits |
| Sold inventory  | <b>20</b><br>credits |
| Retired         | <b>10</b><br>credits |

## Commercial activity

READY / 4 references / 0 warnings

| CAPTURED METRIC | VALUE / UNIT         |
|-----------------|----------------------|
| Sales           | <b>2</b><br>count    |
| Contracts       | <b>2</b><br>count    |
| Quantity sold   | <b>35</b><br>credits |
| Sales value     | <b>962.50</b><br>\$  |

## Quantity and population

Available, sold and retired balances may not exhaust inventory. Sales quantity and sold inventory can differ because they describe different records; no missing status or balancing quantity is inferred.

## Financial reconciliation

READY / 2 references / 0 warnings

| CAPTURED METRIC             | CURRENT VALUE | UNIT |
|-----------------------------|---------------|------|
| Contract value              | <b>962.50</b> | \$   |
| Invoiced amount             | <b>687.50</b> | \$   |
| Invoice paid amount         | <b>605.00</b> | \$   |
| Payments received           | <b>605.00</b> | \$   |
| Recorded financial variance | <b>0.00</b>   | \$   |

## INVOICE BALANCE / DERIVED

Invoiced amount minus invoice paid amount.

Zero variance does not establish full payment.

**\$82.50**

# Report context

|                              |                                            |
|------------------------------|--------------------------------------------|
| Facility                     | North Ridge Dairy / FARM-WI-01             |
| Report scope                 | All available records / no date filter     |
| Generated (application time) | 2026-10-03 08:24:36                        |
| Document state               | Live working copy / not saved or finalized |

Current facility records read when this PDF was requested. Generation time is not a reporting-period cutoff.

**Live working copy**

This download does not create a saved report, review decision or checksum seal. Use the saved-report workflow when a finalized record is required.

## Current section register

| SECTION                  | CURRENT STATUS | REFS | WARNINGS |
|--------------------------|----------------|------|----------|
| Environmental Evidence   | READY          | 61   | 0        |
| Data Quality             | READY          | 61   | 0        |
| Registry Readiness       | READY          | 1    | 0        |
| Credit Inventory         | READY          | 4    | 0        |
| Commercial Activity      | READY          | 4    | 0        |
| Financial Reconciliation | READY          | 2    | 0        |

References count each section's source population and can overlap. READY and zero warnings are current report states, not proof of environmental-result authorization.

## Report parameters

{ "reportingScope": "ALL\_AVAILABLE\_RECORDS", "dateFilterApplied": false, "generatedFrom": "FACILITY\_REPORT", "facilityName": "North Ridge Dairy", "reportingPeriodLabel": "All available records (no date filter)" }

Dollar signs follow the application's display convention; confirm currency from the source records.
